

onAir Producer

The onAir Producer is a remote control system providing complete handheld access to your lighting fixtures' controls, with the ability to save and transfer custom presets. Perfect for film, video, and broadcast production environments where rapid, remote fixture adjustment and consistent preset recall are essential.

- Access and manipulate all on-board fixture controls from a convenient handheld unit.
- Store user presets or transfer them between fixtures for rapid, consistent setups.
- Features a clear OLED display that mirrors the fixture's on-board screen information.
- Utilizes a standard 5-pin XLR cable for reliable, industry-standard connectivity.
- Recharges quickly from any standard USB power source with the included USB-C cable.
- Enables precise adjustment of all color parameters, including CCT and green shift.

SPECIFICATIONS
